# What Our Customers Said

Roisin did the flowers for our wedding in April, and I have to say how blown away we were by her talent! From my husbands buttonhole to our flowergirls corsage - just beautiful. Roisin listened to what we wanted and created a theme which exceeded our expectations. And her customer service is second to none. Thanks Roisin!

Nettles & Petals were absolutely amazing from start to finish. Roisin worked with me closely helping me create the look and colour scheme I was after. Her artistic flair and vision was fantastic and this definitely shows in her work. The flowers were beautiful and were exactly what I had imagined. I think my favourite flowers were my white pew ends which then doubled up as decorative displays for my cake stand and all through the hotel reception! I would definitely recommend Nettles & Petals for your big day!

*Aisling Treanor*

Nettles Petals did my wedding flowers in February of this year. Roisin was a pleasure to deal with and very innovative. They were the most beautiful flower arrangements I had ever seen and I would highly recommend Nettles Petals.
